# Sports Premium Expenditure

## September 2015 – July 2016

The sports premium is additional funding given to publicly funded schools in England and Wales designed to help primary schools improve the **quality** of the PE and sport activities they offer their pupils.

### How we use the PE and sports premium - Our school's rationale.

At Furzeham school we are committed to making additional and sustainable improvements to the quality of PE and sport that we offer with the funding that we receive.

We understand the importance of:-

- Developing or adding to the PE and sport activities and provision that we already offer and in making improvements that will benefit pupils joining the school in future years.
- Developing strong links with community sports clubs to enable more children to become actively involved in both social and competitive situations – Raising participation in sport.
