

We visited Year 3/4 class in September 2017 to make bread with them. The class were amazing, they were polite to both Lee and I along with their classmates. They were very engaged and attentive throughout the whole workshop. They listened to the talking part so well, they answered all questions fantastically well. We were amazed that the class were only a Year 3/4 with the way they behaved. They were one of the best classes we have visited and we visit a lot! They were a pleasure to work with and loved our workshop with them.

They were fab.
